ADVOCATING OUR POSITION

This session will introduce participants to their role in effective advocacy of issues. Advocacy that is action-oriented and aimed at achieving the desired outcome. Participants will develop an understanding that ALL members may initiate advocacy – it's not something that "members" need to wait for "executive officers" to do!

EFFECTIVE COMMUNICATION: *Even When We Disagree!*

This session will have participants reflect upon their behavior in situations where disagreement or conflict might manifest, to reveal areas for potential improvement. Participants will be challenged to think about why disagreement is difficult and to "taking the risk" to improve or increase their ability to productively handle difficulties that emerge.
